

Maps Paris London Brief

As you can see from the synopsis the exhibition will be comparing and connecting Paris and London from the 1960s through to the early 1980s. Within the exhibition we want a number of maps that will compare and contrast the two global cities in a manner that will be both visually informative and stimulating.

1 A Map that will compare Paris and London in 1962 and 1989

This must show the urban geography of the two cities

This must show how the size of both cities has changed

This must show the size of the populations and the diversity

This must show the impact of global migration

2 A map for each decade that identifies ten key musical spaces in each city

Record shops/markets

Dance halls

Concert halls

1960s

1970s

1980s/1995

3. Two maps based upon Colin MacInnes *Absolute Beginners* and Sam Selvon *Lonely Londoners* which identify different spaces in London

4 Map that illustrates route of the 1976 Notting Hill Carnival and pinpoints where clashes with the police took place.

5 Map illustrating route of the Rock against Racism Carnival 30 April 1978 in Victoria Park, London
